

AJISHAL R

Electrical Engineer | Electrical Design & BIM

📍 Trivandrum, Kerala (Open to Relocation) ✉ ajishalraveendran@gmail.com ☎ +91-8075015229

in [linkedin.com/in/ajishalr05101999](https://www.linkedin.com/in/ajishalr05101999) 📱 ajishal-bim-builder.lovable.app

Professional Summary

Electrical Engineer with 1+ year of experience in electrical building services design and BIM delivery for large-scale GCC projects in the UAE, Qatar, and Saudi Arabia. Hands-on experience in electrical system design including fire alarm design, emergency lighting design, load schedule creation, power distribution, and lighting design, alongside Electrical BIM modelling, MEP coordination, and clash detection in Autodesk Revit MEP and Navisworks. Proficient in AutoCAD, DIALux evo (lighting/lux calculations), Autodesk Construction Cloud (ACC), and ReCap (Scan-to-BIM). Working knowledge of IEC 60364 and Gulf design codes (DEWA, SEC, KAHRAMAA, NFPA 72), with the technical grounding to adapt quickly to BS 7671 and other regional standards. Bachelor of Technology and Diploma holder in Electrical and Electronics Engineering, Seeking to build on this foundation as a Graduate Design Engineer to deliver design calculations, layouts, schematics and coordinated documentation for MEP projects.

Technical Skills

- **Electrical Design:** Load Estimation & Demand Calculation, Load Schedule Creation, Cable Sizing, Voltage Drop Analysis, Power Distribution Design, Fire Alarm Design, Emergency Lighting Design, Distribution Board Design.
- **Lighting Design:** DIALux evo (Lux Level Calculations, Luminaire Layouts); working familiarity with Relux.
- **Design & Drafting:** AutoCAD (2D & 3D), Revit MEP, Shop Drawing & As-Built Preparation, Electrical Layouts (Lighting, Small Power, Cable Containment, Earthing & Lightning Protection, Fire Alarm).
- **BIM Software:** Autodesk Revit MEP, Navisworks Manage, Autodesk Construction Cloud (ACC), Autodesk ReCap (Scan-to-BIM), BIM 360.
- **BIM Processes:** BIM Execution Plan (BEP) Compliance, Level of Development (LOD) Management (LOD 200–400), IFC Export, COBie Data Preparation, NWC/CSD File Production, ISO 19650 Awareness.
- **MEP Coordination:** Multidisciplinary Clash Detection (Hard & Soft), Coordination with Architectural, Structural, HVAC, PHE, Fire, and ICT teams, RCP Coordination, ELV Systems (Fire Alarm, CCTV, Access Control, Data, Telecom, GRMS).
- **Standards & Codes:** IEC 60364, DEWA, SEC, KAHRAMAA, NFPA 72; adaptable to BS 7671.

Professional Experience

COMMANDTECH CAD & IT PVT LTD

Electrical BIM Engineer

Trivandrum, Kerala

June 2025 – Present

- Assisted senior design engineers with electrical design calculations, drawing production, schedules, and coordination deliverables using Revit MEP and AutoCAD.
- Delivered Electrical BIM modelling for 6+ residential, commercial, and infrastructure projects across UAE, Qatar, and Saudi Arabia using Autodesk Revit MEP and Navisworks.
- Developed coordinated power, lighting, and ELV BIM models and performed clash coordination with architectural, structural, and MEP disciplines, resolving 200+ hard and soft clashes.

Alpinecoachtree MEP (ACTMEP)

Electrical Design Instructor

Chennai, Tamil Nadu

(Remote/Freelance)

April 2026 – Present

- Delivering structured training in Electrical Design Engineering covering power system design, load estimations and demand calculations.
- Conducted Drafting sessions using AutoCAD and Revit MEP, developing electrical layouts for Lighting, Small power, Cable containment, Fire alarm systems.

Project Experience

The Palm Jumeirah – Resort

Dubai, UAE

Hospitality | LOD 200 | Revit MEP, AutoCAD, Navisworks

- Assisted design engineers in the electrical design of the resort development, supporting containment system design, fire alarm system design, emergency lighting design, and load schedule preparation.
- Developed the corresponding electrical BIM models and drawings in Revit MEP and AutoCAD, with Navisworks used for coordination checks.

Mall of Emirates

Dubai, UAE

Shopping mall | LOD 300 | Revit MEP, AutoCAD, Navisworks

- Assisted design engineers in developing electrical designs across power, containment, fire alarm, and emergency lighting systems.
- Delivered full electrical BIM modelling at LOD 300 across all services, with coordinated RCP and wall placement across multiple towers.

Emaar Beachfront Development

Dubai, UAE

High-Rise Residential | LOD 400 | Revit MEP, Navisworks

- Modelled and coordinated electrical BIM services at LOD 400 for a high-rise residential development, focusing on multidisciplinary clash resolution with structural and architectural teams.

Al Waha Residence – Expo City Dubai

Dubai, UAE

Residential | LOD 400 Electrical BIM Coordination | Revit MEP, Navisworks

- Developed and maintained LOD 400 Electrical BIM models in full compliance with project BEP, consultant standards, and coordination requirements.

Strategic Food Security Facilities (SFSF) – Hamad Port

Doha, Qatar

Infrastructure | Scan-to-BIM | Autodesk ReCap, Revit MEP

- Executed Scan-to-BIM conversion using Autodesk ReCap and Revit for a weigh bridge and authority building facility at Hamad Port.

AMAALA Six Senses Resort

Saudi Arabia

Hospitality | ELV As-Built BIM | Revit MEP

- Prepared ELV as-built BIM models for a luxury hospitality resort, updating models based on site redline drawings, WIRs, and field changes.

Education

Bachelor of Technology – Electrical and Electronics Engineering

October 2022 – May 2025

Govt. Engineering College, Thrissur | Kerala Technological University

- CGPA: 7.04

Diploma – Electrical and Electronics Engineering

June 2018 – November 2021

Govt. Polytechnic College, Kozhikode | SBTE Kerala

- CGPA: 8.34

Certifications

- **Autodesk Certification – Revit and Navisworks**
- **Revit MEP Electrical Masterclass – Beginner to Advanced** | Udemy
Certificate No: UC-0fedc1b9-04f8-4fb7-a388-b1c20db1355a
